Lot 20

## Bulls with bulletproof calving ease.

We haven't pulled a calf out of a first-calf heifer in 20 years and we've calved a lot of them while building our Aberdeen herd. These bulls have been bred with generations of calving ease and will take the labor out of calving first-calf heifers. They will produce marketable calves that will become very high-quality carcasses or moderate-framed, efficient cows. All of the bulls in the sale have DNA on file with the American Aberdeen Association, making their calves eligible for the Aberdeen Premium Beef Program. We have spoken to cattlemen who have recently decided to keep their heifers this year. Buy these bulls with confidence.
