

Just say no to gun control -
Try a Pistol!

Magnum's Greatest Son!

EZ Pistol 23P, Fullblood Lowline

Our first fullblood and percentage Pistol calves are long bodied, power packed and pretty. He is carrying on the legacy of his sire, EZ Magnum 72J, who produced both an American Royal Grand Champion Female and a National Champion Female in 2004 and 2006. Magnum is the sire of our strongest maternal cow families, including the dam of the 2009 Houston Stock Show Champion, EZ Lacey 55T. Semen is now available on Pistol.

FM2829

EZ Pixie 325U is a typical long-fronted, feminine Pistol daughter out of a Sherman daughter. She is super attractive and strong maternally.

EZ Wynona 308W is a powerful, deep-sided, long-bodied, fancy Pistol daughter with lots of bone and balance. Her dam is an outcross John Henry daughter that really milks well.

EZ Wesson 132W is a super fancy halfblood herd bull prospect by Pistol. He has lots of hair and bone and a real stout look about him.

Plan to attend the 4th Annual

Discover Lowlines
GREAT FRIENDS | GREAT CATTLE | GREAT FUN! **WEEKEND**

Breeder Seminar & Production Sale

June 4-5, 2010
