

Lowline Leader

EZ Lisbon 29L FM1756

Lisbon leads the Lowline breed in combined carcass traits. He measured a whopping 19.62-sq-in ribeye area as a three-year-old at 1530#. He has an MMI MGW for marbling of +61.07 (the average high accuracy, high EPD Angus bulls average +40) and a MGW for tenderness of -1.99 (the bigger the negative number the better) which are great scores on both.

He is the stoutest, most powerful son of Beau Lad. His calves excel in conformation as well as carcass genetics.

EZ Templeton 4T, son of Lisbon

Lisbon Semen: \$25/straw
Fullblood Certificate: \$100
Percentage Certificate: \$20
